SCIENCE.ENV.1.H	distinguish between scientific hypotheses, theories, and laws.	**ENV.2.B**	~~know that~~ scientific hypotheses ~~are tentative and testable statements that must be capable of being supported or not supported by observational evidence. Hypotheses of durable explanatory power which have been tested over a wide variety of conditions are incorporated into theories~~;	
		ENV.2.C	~~know that~~ scientific theories ~~are based on natural and logical explanations of scientific evidence~~;
